Prakash Venkatraman

Senior Director of Software Development at Oracle
Bengaluru, Karnataka, India

Summary

Having over 25+ years of Software Development industry experience in which about 8 years in USA, I have a commendable experience and exposure to Software Development Life Cycle. Currently working as Sr. Director, Software Development with Oracle Corporation. I have the ability and experience to take a product from requirements level to go-live. My recent passion on being the Data Scientist, making my hands dirty on Data Science, Predictive Monitoring, Big Data, Hadoop, Spark, Pig and Hive.

Being the Gold Medalist in his Master's Degree (Computer Science) , I have worked extensively as Developer, Technical Lead and Technical Manager involving technologies like J2EE, Java, Weblogic, Oracle, TOPLink to name few. Selected as one of the Top Technical Leaders in Service Engineering Group, Oracle.

I am known for my workaholic attitude, commitment and quality. Along with an excellent communication skill, I keep cohesive relationship with peers.

Specialties: -

- Predictive Analysis
- Pro active Monitoring
- Machine learning
- J2EE Architecture,
- Project management
- Large scale Project Implementations
- Consulting
- Training & Mentor.
